“ Thinking about Aaron today, as well as the rest of your family as you lay him to rest. I have so many good memories of my friendship with Aaron, and above all else the thing that I remember most about Aaron was his sense of humor. Aaron and I were hardly ever serious with each other, and I enjoyed talking to my classmates way more than doing any actual work.

Aaron and I had a good couple years in Germany, and he welcomed me with open arms when I came up to visit Orlando when I was on home leave visiting my grandparents in Venice. I'm pretty sure we rode around in Robert's car listening to 69Boyz or some other Florida rap that could shake our guts out with the subwoofer he had in his trunk. We put the seats down and had to crouch in the back, but I'm sure the music sounded great, and I have a good memory from it.

Thank you for sharing this with us so we can remember Aaron.
