“ The first time that I met Doris was at her parents home, she was so nice to a little kid like me, she showed me how to shoot a bow and arrow, So no matter where I saw her after that, like when she worked in Clermont at the Dime Store, I always had to run and find her to say hello. So just a little act of kindness to a child will stay with them the rest of their life. Thanks Doris I will always consider you a friend.
