“ Dearest Auntie, It seems like a lifetime since I last saw your face in person...but it feels like just yesterday when I think of you or remember something that you said or did! That list is so long...and even though it has been forever since I got to wrap my arms around you...I still remember well what it felt like to hug you! Your excitement always filled me joy and I had such an appreciation for your dramatic side...I will never forget the love and support you gave me growing up and you will always be one of the absolute best parts of my childhood! I love you and miss you and I am enjoying all the memories I have stored over the years of you and what you were to me. Rest In Peace my Sweet Auntie!

“ Dorothy I will miss you. When you enter into this family the fewill never forget you and the kind heart you had. I remember when you became a Grandmother for the first time and when you got the job at the school. I loved it when you got excited about something, you would be smiling so big your cheeks would be raised so high that you couldn't even see your eyes. It's the little things you remember about someone the most. You were just like me a stand up for what you believed and stand by your man woman. I was looking back over the pictures of when we went to Titusville fishing. You were catching junk fish but you didn't care you were excited to just be catching something. I love you Dorothy and will miss you always.
