“ Frank was a friend and dental laboratory colleague. We have special memories of my son and I deer hunting with Frank in Blakely, Georgia. Sitting around the campfire telling stories and for my son's initiation into the sport; it couldn't have been better. Frank and I shared love of outdoors and golf. It was his dedication and hardwork to his profession of dental technology and dental laboratory business that was our introduction and that is why in his memory a donation to the NADL Foundation for Dental Technology has been made to honor his contribution to the advancement of the dental technology profession.
