“ *With heavy heart I am writing this, but I am glad that I had one last chance to talk to you before GOD took you home to Phyllis , now the two of you can be joined again though out eternity. I will always remember the times we had like when we went camping or deep sea fishing or other times that you let me hang out with you. You taught me alot and I will never forget. I will love you always. Your niece Anna Until we meet again*
