“ *I remember getting to fish with my cousin Jim on his really nice bass boat when I was about 10 years old. At one point I complained to him that I wasn't catching any fish like the others. He had me stand by him and we watched the shoreline pass by for a short time until he spotted a disturbance on the water near some brush. He said cast to that spot so I focused as hard as I could and cast my lure right to that spot and bam!, instant strike and I reeled in a nice bass. Legend!!*
