“ To Jerry Hoven's Family, I am sad to read of Jerry's passing. When I came to the Plant Engineering group in March 1976 at Caterpillar's Basic Engine plant in Mossville, Jerry was in Education and Training in building BB. Later he became head of the Plant Engineering maintenance group in the new building DD. My first big job was overseeing the electrical portion of installing 36 engine test cells in DD. Electrical upgrades over the years were accomplished easily with Jerry's support. He was firm and a joy to work with. I hope your many happy memories will help you get through this most difficult time. My thoughts and prayers are with you. Ed Johnson (Cat MEC Retired) Peoria, IL.
