“ *I'm so sorry to hear about the passing of John. He was so nice each time I saw him in Pennbrooke while visiting my parents (Robert & Alice Kesterson). My Dad & I would wave at him each time we passed his house, John would be in his kitchen and waving back. My thoughts and prayers are with you.*

“ *Can't believe John has passed. He will be missed very much by family and friends. Our prayers will be with you.*

Tommy and Linda Thomas Clover, SC - October 01, 2014 at 12:00 AM

“ *Praying for God's peace and comfort for you at this time. I still remember how your dad used to kid me when I came over when we were teens.*

“ *What a shock to hear of John's passing. We knew him thru shuffleboard and he certainly was a formidable opponent. Sometimes we'd win, sometimes we'd lose, but no matter what, he was always smiling and joking around. He will be missed----have a peaceful rest, John.*

“ I'm sorry to hear about the passing of your brother, Jim. I recall your mentioning him occasionally. I heard about his passing from my association with an IUS group, organized by Keith Felling, which I have lunch with occasionally. Chuck Broughton, via email contact, steered me to the group a few months ago. I retired in JUL 2013, my last job being component maintenance manual creation/updating, starting in 1994 in Commercial at a building a few blocks south of end of the runway at Boeing Field in Seattle. I've been quite busy in retirement, particularly with care for the older of my two younger brothers, who has a bipolar condition and is in an assisted living facility in Tacoma, about 30 miles from Renton where I live with my girlfriend/domestic partner Laurie. Her mother and aunt also keep us busy with their care. Here are some tidbits regarding IUS people we knew, some of which you may have already heard: Eric Beard, who was in QA and a famous airshow pilot who had the plane Russian Thunder, passed away due to a non-airshow plane crash. I'm also aware of Niels' passing several years ago. On one of my two trips to FL with Laurie-I think it was the most recent one where she and I watched the last launch of Discovery-I spoke briefly with Warren by phone. He said he was doing OK. So, Jim, I invite you to bring me up to speed on what's been happening with you and any other IUS folks you've heard from, since I left the Sunshine State ~29 years ago. John V.
