

Julio Tomas Noguera

March 7, 1926 - March 30, 2017

Julio Tomas Noguera (91), The Villages, FL., passed away peacefully at home on March 30, 2017. Born in Naguabo, Puerto Rico, Julio was married 59 years to the former Luscinda (Lucy) Sellés Noguera. Graduating with his bachelor degree, Magna Cum Laude, from the University of Puerto Rico, Julio then received his medical degree from the University of Maryland. Afterwards in his post-graduate studies, he specialized in Otolaryngology at the University of Pennsylvania, School of Medicine. He was a member of the Phi Sigma Alpha Fraternity. Stationed in San Juan, Puerto Rico, he served as a Captain in the Army Medical Corp. He and Lucy raised their family in Interlaken, New Jersey. He was the former Director of Otolaryngology at Jersey Shore Medical Center in Neptune, New Jersey. He was honored by the Senate of New Jersey for his meritorious career in medicine. He retired to The Villages in 1998. Left to honor Julio and remember his love are his three surviving daughters: Luscinda (William) Lane, Kinnelon, NJ, Yolanda Noguera, The Villages, FL, and Carmen (Joseph) Oesterling, Ann Arbor, MI. He leaves behind his legacy of four grandchildren: William Lane, Gregory Lane, Christopher Oesterling, and Jennifer Oesterling. He was loved and lived an accomplished life; a brilliant, generous man who did so much good for so many. He was the perfect father. His family misses him deeply. Visitation and Service
Family and friends are welcomed at 1 p.m. Saturday, April 22, with a wake service at 2 p.m. at Beyers Funeral Chapel, Lady Lake, FL.

“ Dr. Noguera surgercaly repaired and restored my hearing at Jersey Shore Medical Center in Neptune NJ IN 1960. I probably had more surgeries by him than any other patient he ever had. After success, I was able to teach for 40 years without any hearing device. He always appeared as a friend as well as my Doctor. Many thanks to Dr. Noguera, RIP.

“ I want to offer my deepest sympathy to the Noguera family. I have only known Julio for a little over a year, but I had the greatest respect and admiration for him. I always enjoyed talking to him. He was a very good man. There are never adequate words at a time like this.

HC

“ I remember well the kindness and patience of Dr. Noguera when I was a student in nurse anesthesia at Jersey Shore Medical Center. Thanks in part to his guidance I was fortunate to have a knowledge that enabled me to have a great practice as a nurse anesthetist. My condolences to the family.
Heidi Phelon (still back in Monmouth County, NJ)

“ I would like to extend my very deepest condolences to the Noguera family. Although I only casually knew the family during the 1970's-80's I remember what a lovely family they were. I worked at a gift store in Brielle, NJ during my high school and college years. The Noguera's often shopped there. Dr. and Mrs. Noguera both were always so kind to me and made me feel special. Dr. Noguera was a refined and quiet gentlemen and both had such warm smiles and warm hearts. Yolanda and I became friendly but lost track of one another when she attended Syracuse. I would like the family to know that I have always had a special place in my heart for them and that I have often thought of their visits to the store and my trips to their home with deliveries....multiple times with the beautiful Herend china which Mrs. Noguera cherished. My thoughts and prayers to each of you. David FitzMaurice

RL

“ While home on spring break from the former Glassboro State College (now Rowan University), I sustained a broken nose in a pickup basketball game. This happened at a park in Ocean Township, my hometown, during the second semester of my freshman year.

I was driven the short distance to my home, where my mom immediately took me to Jersey Shore Medical Center.

There I met Dr. Noguera. He immediately put me at ease with soothing words, then gave me a local anesthesia. He took a small hammer and turned around a scalpel, so the blunt end could be placed against the side of my nose. He said to me, "This will not hurt you. You have a clean break. I will put your nose back into place. When I do that, you will hear a popping sound, like a small firecracker going off."

The hammer hit the scalpel, and I had my nose back in its correct place. "You may have black eyes," said Dr. Noguera, "but you will be fine. "

He was right on two counts. I had two black eyes. And I was fine.

I have never forgotten this incident. And I have never forgotten Dr. Noguera's gentle words and expert actions.

*I extend my sympathy to the entire family.
