“ My sister Karen I will always remember my sister Karen This much I know is true She was the kindest person I ever met And I am proud to be her sister Sue We are seven years apart in age And we shared a room when I was very small Oh we had some issues with that But we managed to get through it all You see my side of the room was so very messy As messy as can be Her side was meticulously well kept And she was not very happy with me But time passed and we both grew up We were sisters and such good friends She had compassion for all people and animals too She was like that till the very end She played the flute so perfectly And was musically talented in every way She inspired me to also take lessons I hoped I could also play as well some day I remember how beautiful Karen was When she was in the Miss North Syracuse contest one summer day I watched her coming down the street in the parade I thought she was stunning in every way We planned family picnics and events together We had so many good times and laughs Mom and Dad's 25th anniversary was one of them That we planned together and we sure had a blast Karen had a passion for music and dancing She was energized by hearing any music or song She would try to sit still when she heard the music play But she would spring to her feet and start dancing along I will always remember her kindness And her great love for children too She had an amazing way with all children They all truly loved her too Never did a birthday, anniversary or holiday go by That Karen did not send a card to say That she wants you to know that you are special In every way on that particular day I missed her so much when she moved down South But we sill connected by phone and by mail We would call each other frequently and vent about life And laugh at a funny story or tale Karen had remarkable secretarial skills She was the most orgainzed and efficient person I have ever met Finding someone who is nicer than her Is something youi would just never get Her heart was as large as the ocean Her smile could brighten any room She had so much patience in life She never was full of gloom and doom She has gone to be an angel in heaven And I am quite sure she is taking good care Of all the children in heaven right now Who don't yet have anyone there I know that she is leading the

way And that some day she will guide me to the light She is one of the bravest people I know And with the cancer she put up a good fight I will always rememeber and love my sister Karen And admire her bravery too I will miss her all the remaining days of my life But I am proud to say I am her sister Sue

“ I just wanted to say how sorry I am about Karen's passing. She will be missed very much at work and I will miss her smile and sense of humor. She handled her illness with grace and dignity. I guess God needed her more than we did and I know he had a very special job in line for her when she got to heaven!!
