“ You always knew what to say especially when it came to advice you never beat around the bush with anything. You always put things in perfect perspective, it didn't matter from who's view it came from especially your honesty it only made those who you gave it to and listened stronger. We didn't really get to see each other a whole lot i really wish that could of been different, but I still appreciated every talk we had. I didn't really have any gumption as a person but the strong, narrow, and to the point advice It makes me want to work hard and go and get things like you did. Meehans are strong and always figure it out. Im just glad I had the privilege to call you my Pop ill always Love you and miss you. I know god realizes that he gained a good soul up there. Your Grandson, Joseph Patrick Meehan

“ *Our good neighbor and friend will be missed dearly by Riverwalk Village residents and the entire Plantation community. Boccee won't be the same without Ken as well as so many other functions he was involved with. His spirit to 'keep on going' in spite of the obstacles handed him gives us inspiration to do the same. Heaven will be blessed with another 'Smiling Irishman!.' Love, Bev & Ron Parsons*

“*Pop, You were living inspiration for me--you believed in me from the day I started talking to you about college when everyone else thought it wasn't the best idea due to financial troubles. Whenever I had an issue I could not figure out, I could call you because I knew you would give it to me straight, no beating around the bush. Even though you are not here physically, you are still spiritual inspiration for me. There are a lot of things I want to accomplish in this life and you taught me irreplaceable lessons in how to follow through with those goals. The week you and grandma came to graduation at Appalachian State University was one of the happiest days of my life. To see how proud I made you is unexplainable--I will continue to do just that and keep the MEEHAN name moving forward. KEEP MOVING FORWARD I love you, Pop. PS -- I will keep the sayings alive - "Hey pal, I'm stuck between a rock and a hard place" - "Between you me and the lamp post"*

“ Dear Grandpa, you're grandson Matthew Kenneth here. I was so traumatized to hear of you leaving us to head for the Golden Gates. God was granted a new beautiful angel that day. As you look down and protect us all, I remember back to the gold old days of visiting you in Keansburg almost every week with my Father, and little brother David. It's nothing but a smile that comes to my face when I think back to what good times and life changing advice I had obtained from you. You were a great man, loved by so many us. You always told me you believed in me and that I just had to try a little bit harder to believe in myself. January 11th, a part of my heart had completely disintegrated. I know you will help me along my life and will always be there for me and my family even if you're not here with us physically. Thank you for placing your last name upon me and I am truly honored to have been your grandson. I will make you proud Grandpa. Remember, I will always love you. Rest In Paradise always.

“ I never will truly forget the times spent talking to you. It was just like yesterday I was talking to you on the phone. Even though you were hundreds of miles away, You were just still one phone call away. I still had you to always talk to about anything. As a little kid Growing up I got to spend time with you. To look back at all the memories and all the times I would stop by at your house with my brothers to just say hello and hangout for a little while. I never really got the chance to say Thankyou and to truly say goodbye to the man who I once knew was my hero. I love you pops, Rest in paradise

“ Dear Pat, So sorry to hear of Ken's death. At this moment in time we can especially share in your grieving since we both are in the same situation. You are in our prayers as you mourn and yet at the same time celebrate the gift that Ken was to your life and to the lives of others. Peace! John and Gracia Luoma
