“ *To my brother with all the love I could ever have. I came here to read condolences that some one may have left - to my dispare no one was here - I know you know how deeply you are missed and loved - but no one could love you like our Heavenly Father, where I know ,is where you are,blissfully happy with no pain,and no sadness. I've asked God to have you watch over me like you've always done.I'm so proud to be your sister and we miss and love you so much - you will never be forgotten for you are always with us, tell moma we love and miss her - I'm happy knowing your there with her and aren't you happy that you'll never be old - people in heaven don't get old you know.I'll be happy when my savior calls me home and we can be together. I love and miss you my brother, Your sister always, Gloria Luchene Ferguson Feb.28,2012*

“ *Hey Buddy, Well, I finally found you after years of Internet searches. And what a shock. For years I had wondered how you were doing. I am near your age, but never think of time passing. I never thought I would hear that you were deceased. And now I'm looking at your picture -- you frozen in time forever. Such are memories. Able would be shocked to hear of your passing. Now I know where you are. May you rest in peace my friend. May you find what you could not find on earth. Farewell*
