“ *Baby, Words cannot even begin to explain how I feel right now. I miss you so much and I really don't know how I am going to do this without you. I remember the first day we met, the first time I saw you, even what you were wearing. I know I've told you this a million times, and I'm going to miss you asking me what it was that you were wearing. Just to see if I forgot. I will never forget. We had our ups and downs but, there is not one single down day that I would ever want to trade. I always knew that no matter how much we argued or what we said to each other that you would always go to bed holding me and we would always wake up being even closer. I don't know how I will ever get over that feeling or the way you smell. I love you so much Michael John and there wasn't a day that went by that I couldn't wait to spend the rest of my life with you. You and Casen are everything to me and he will always miss his daddy.....*

“ I love you and miss you so much Michael John Sparacino. There is no one in this world that could ever take your place in our hearts. You will forever be missed but, never be forgotten. I know you will always be watching over us and be with us always. I wish you could have seen how big Casen's arms opened up when I asked him how much he loves daddy. I will wait for the day that we meet again. Michael, my Guardian Angel. I will love you forever and always. I love you daddy.

“ Dear Michael, From the moment I laid my eyes on you I depended on you to be there as my big brother forever and always and now your gone. I looked up to you for everything, it was always Michael and Ashley until Joey came along a great joy we shared together and from there Matthew Madison Emily Tyler and Amber. We all needed you and you were supposed to be here for all of us as our big brother. It was not your time to go and now your gone, a day we will never forget. I just wish you kept your promise to me and called me to talk to me about how you were feeling, I wish there was something I could've done to help you. I know we cant live on what ifs or I wish I did this or that, we have to live with what was and what is and be happy that we had you in our lives period. We have been through so much together and we always stuck together now I just have to turn to prayers to talk to you in hopes you hear me. I love you forever and always! Your biggest little sister, Ashley xoxo
