“ *Billie and I always communicated around Christmas to catch up on things. As I prepared to send a card to her I thought I should check on her well-being. I am very saddened to learn of her passing. She added depth and perspective to everything she did. Billie hired me at First American Bank in 1982 and she mentored me until her retirement. I can still see her singing the 12 days of Christmas in my living room at the staff holiday party. She was a treasure to me and I will always cherish our time together. Blessings to her family.*
