

Peter Parker

April 1, 1992 - April 1, 2020

Peter Parker, age 28, died peacefully at home on April 1st after complications from a radioactive spider bite that led to years of crime-fighting and a years-long battle with a nefarious criminal named Cancer, who has plagued our society for far too long.

Civilians will recognize him best as Spider-Man, and thank him for his many years of service protecting our city.
