“ Hey, I will give you \$1.50 cents to clean out my car. Why, because I have a date tonight. So what you clean it, I don't have no date, I was only 7 years old but I reluctantly got Ronnie and Donnie out there to help me clean it. It was a easy job. By Time We Done He Was Ready To Go Pick Up His Linda Fuller date. I remember how he had a small little picture of her on the mirror. He would primp worse than any woman.,Mom's used to say. He would stand there with those black curly locks of hair and sing to her. Finally he was dressed, spiffy I'd say. He had a lot of faults And large amount being fixed on his own self. He was quite a intelligent person till both of our parents died. I saw many more changes in him these last 15 years than ever before. Of course people change as their lives move on. Well he married Linda Fuller his high school church sweethearts. All the boys were born and then came Monica. At last the baby girl he wanted. Then one night while he was working with the Wakulla police dept. It was early may and it was a self inflicted suicide. It hit his emotions so hard I don't think he ever recovered . To tell you what kind of a person he was is to see the lights of the Son God's eyes in each child, in each grand child. He loved Linda as his queen. Problems and trials hit them often When our mother and father died he just began to crumble like an old vase, But we are here today to let you know all the prayers and love, did not fall to a deaf ear so we are here today to honor my brother Quillian Gene Green. I know he's up in Heaven with all our parents and brothers and sisters. How we miss them all. The only words I can cling to is To Be Absent from the Body is to be Present with the Lord. I loved you Quill Ian with all my heart. God bless us all.
