“ *My Father was an amazing, loving, and caring person. He was a hard worker. He always made sure our family had everything we needed. We talked on the phone almost everyday. I miss him so much and I always will. He deserved so much better than most people treated him. He struggled daily with epilepsy, heart problems and diabetes. He stayed strong his whole life. He was always positive even though he was so sick. I think of him everyday. I love you Dad* ❤️
