“ In the 80's and 90's I used to work a lot with Bob. He was famous for saying "if you want it bad, you'll get it bad!" He worked Quality Assurance and lived that ethic. I was a huge fan and still quote him today.

In those days, my job caused me to deliver products and services. We had serious problems with delivery and Bob could regulate the flow of money for production. I sensed his help was vital.

Over time, we found mutual ground and Bob suggested we shift the focus. He suggested we cause users, and not bureaucrats, prioritize products. Bob wouldn't skimp on quality, instead he showed me how to relocate the problem and force users to decide. It worked. His insight and clarity will be missed.

“ *I am so sorry for the passing of Robert, my condolences go to the Hunt's and Family. I too have loss a loved one and what brings me great comfort is Revelation 21:4- And he will wipe out every tear from their eyes, and death will be no more, neither will mourning nor outcry nor pain be anymore. The former things have passed away. What a wonderful promise from God! I hope this comforts u as much as it does me*
