“ Dear Larry, Giles and Morgan and Families:
Your mom was so proud of you. Every time I saw her she would tell me how and what you were doing. I still remember enjoying a Christmas luncheon in her home with my mother and your Grandma Carolyn. Their home was sparkling from top to bottom with decorations and Christmas trees filled with cherished ornaments from their lives and loved ones. Your Grandpa and Grandma Giles opened their home one weekend to my dad when he was a student at Stetson. Dad was a made to feel welcome then as we were always. What a kind and decent heritage you come from. I once had an important faith talk with your mom, concerning all of us kids. I would love to share the content of that talk in private. feel free to contact me through email if you would like to know more. She loved you all very much. I look forward to seeing her in Heaven again some day. P.S. My three sons are now acolytes in the Altoona Methodist Church like some other boys I knew once. She got a kick out of that...Love, Holly (hollynewby1@aol.com)
