“ My memory of Ruth Forbeck started in 1984 when she was an Elementary Principal in Adams County, Ohio. At that time, her husband, John, was the Superintendent and he hired me as Administrative Secretary. I saw her as a well-qualified professional who was always caring and concerned with her students and devoted to the well-being of her staff. She was also a lovely lady dedicated to her husband and son. I send my condolences and prayers to her family.
