“ *Sandra was one of my favorite people when we were in school in Westfield, Indiana. Even though I was a year ahead of her we were seated near each other in Study Hall (Home Room), because we were seated alphabetically. She was always cheerful and pleasant even when bearing the load of her fathers tragic accident and death. I am saddened to hear of her death. Bob Andry, Marion County Florida*

“ *Through good times and bad we were friends for over 40 years. We lived in different cities for many years of those years, yet whenever we got together it seemed like no time at all had passed. I will truly miss you my good friend.*
