“ I met Sandy on pogo about 10 years ago in a bowling room. How we became friends was she was having trouble with her computer. I walked her through some steps to fix the problem. I've done that several times over the years. She was nice to talk to. We would video chat on Face book some. She will be missed.

“ As neighbors in Austintown, Ohio, Sandy and I became close friends. Our families shared many wonderful Friday meals together while our husbands were working, which included homemade biscuits with my two kids (Elaine & Bobby) and hers (Tim & David). We knew each other for many years. With our many relocations, we stayed in contact through occasional long-distance phone calls but mostly by sending birthday and Christmas cards. She will be greatly missed. Helen (Adams) Ryan in North Royalton, Ohio
