“ Miss Tammy, who lovingly cared for my son, Scotty. She held a special place in his heart, and he cherished the time spent with her and "Big Mark." Anyone who had the privilege of knowing her was touched by her warmth and kindness. Her presence in this world was a beacon of light, and her loss is deeply felt by all who knew her. She played a significant role in my life, and I am forever grateful for her guidance and support. My heartfelt condolences and prayers go out to her family during this difficult time.

“ I am so sad to hear of Tammy passing. I remember visting Florida, with Nana and James when I was a child. I was a bit of a shy child and tammy always made me feel welcome and included me and her friends and her church. I was a younger cousin, but she never made me feel like I was being a pest. We had a lot of fun times, she would always take me swimming, we would get snacks after supper (one in particular I remember is a huge thick sugar daddy), we would sing, play school and tell stories--Ghost stories if Grandma B was there! ❤️ as everyday life always does get in the way, we did not keep in touch and i'm so sorry for that. Love you always Tammy!

“ I have so many fond memories of Aunt Tammy. She was a lot of fun. She used to babysit us and she always had games and interesting skits we'd perform. I can remember my first time on space mountain was with her, and I was so afraid. She talked about Christmas throughout the whole ride to keep me calm. I love her and will miss her.
