“ 9-6-2024, I just learned of Tom's passing. Tom was my supervisor in Engineering Services at WDW in the Magic Kingdom back in the early 80's. Great man and supervisor. Rest well Tom! Bob Zanella (Jr)

“ I had the pleasure to of known Tom for the past six years. Terry & I spent many times on his front porch on those wonderful rocking chairs laughing and talking. He was always there in a heart beat if you needed him. Tom always appeared to be so loving and tender hearted. I still find myself looking out our living room window and glancing across the street to see him working on his lawn. I know for my husband will surely miss his "golfing" buddy. He will truly will be missed. One day Tom, we will all meet again in Heaven. Love & Miss you friend... Joanne To Toms Family: Your in my thoughts and prayers. May your heart be soothed and comforted at this time.

DD

“ Thankful you got to meet my wife and two boys. Many memories with you which always involved a laugh. As a kid I always looked forward to the fall when you would head to Metagama to go moose hunting and/or fishing with Dad. Both of you would go clean shaven and come back with full beards looking like true men of the north. I will always remember you moving forward especially when I go to the Bradford Arena and see your team picture on the wall of champions.

*Thank you for everything you have done in my life and you will truly be missed.*

*All of our love*

*Derek, Julia Ethan and Joshua*
