To my one and only Love:

Every morning when we awoke we would always say "Good morning honey, "how are you" "did you sleep all right" to each other. At night we would say "Good night honey", "God Bless", "See you in the morning", "Love you". I cannot find a way to ever say goodbye. Even when apart our hearts are joined. We have a special bond together that even in death cannot be broken. God so blessed us with Jodi and Lynda and their spouses and grandbabies but our love was different, unique, lasting almost 65 years. I will still continue "Good Morning Honey" until God decides when I can be with you again. Until I can be with you again.

All my love,

Your wife forever

“ *My deepest sympathy, I know how hard it is to lose someone you love. So many memories of times with the two of you. Trips out to the cemetery and other special occasions. I had my first Chinese food with the two of you and Uncle Vin made my first drink. I always wondered if there really was any alcohol in those Tom Collins. Never had one that tasted as good as his, I guess because they were made with love.*

Cleaning out stuff in the attic the other day I found my Barbie doll stuff and have these plastic suitcases you bought. Can remember the day you brought them- thought they were great.

Many memories of the week Susie and I spent down there cleaning out Mom's place and you kept bringing us food.

Thanks for all you did for her over the years, it was always appreciated by all of us, even if she didn't always show it.

You have had a tough 5 years, take some time to relax and take care of you. You have spent so much of your life helping others now its your turn.
